5 | IMPORTANT ACCOUNTING NOTES

- Mariaelena receives credit for the entire $42,000 federal extension payment and $4,000 California payment.
- The $46,000 is already deducted in calculating her remaining contribution. Do not subtract the $46,000 again.
- The combined remaining tax balance is $116,853, consistent with the prepared 2025 returns.
- These are proposed internal allocations between spouses, not separate IRS or California FTB assessments.
- The federal and California individual allocations are estimates, not independently certified tax computations.
- The California split has not been fully reconciled to the rental loss carryovers.
- The amounts require Juan and Mariaelena's approval before being treated as final.
